

BioDIP Autumn Seminar

Looking INSIDE with X-ray Microscopy

Mohsen Samadi Khoshkhou: Extending Synchrotron X-ray Microscopy to the Laboratory: X-ray Microscopy as a correlative imaging technique
(ZEISS Microscopy)

Markus Löffler: Applications and Limitations of μ XCT
(DCN, CFAED)

Thomas Kurth: A correlative workflow including light, X-ray, and electron microscopy for targeting small cell populations in tissue samples
(CRTD)

Date: September 26

Time: 2 - 4 pm

Location: MTZ, SR 4/5 (2nd floor)

Everybody is very welcome!
